Register of Official Forms

A guide to the documents that must exist before the smallest conceivable act is permitted to exist.

D.U.P. · AUTHORIZED REFERENCE COPY · REVISION 1.5

DEPARTMENT OF UNNECESSARY PROCEDURES

SUPPLEMENT TO THE CERTIFIED EVENT LEDGER

Index of Forms

This companion explains the forms appearing in the event ledger. The form titles are descriptive reference labels; the numbers, departments and procedures follow the app. The ledger itself is unchanged.

FORM	DOCUMENT	DEPARTMENT	TYPE
F-001	Initial Petition & Numbering	Intake	Main approval
F-008	Record of Prior Intention	Registry	Main approval
F-012	Certificate of Safety & Innocence	Safety	Main approval
F-023	Preliminary Decorum Assessment	Decorum	Main approval
F-034	Fiscal Implications Certificate	Fiscal	Main approval
F-041	Certificate of Ceremonial Gait	Silly Walks	Main approval
F-046-W	Provisional Walking Permit	Committee	Supplementary permit
F-047	Committee Resolution on a Minor Act	Committee	Main approval
F-023-G	Post-Committee Gait Conduct Review	Decorum	Supplementary review
F-099	Final Seal & Dispatch Order	Dispatch	Main approval

> **Administrative distinction:** Eight forms correspond to the eight chambers of assent. **F-046-W** and **F-023-G** are supporting procedures; neither adds a ninth or tenth chamber approval.

The Forms, Explained

Entries follow the usual path from Intake to Final Dispatch. Each description is based on what the simulator actually requires and records.

F-001

MAIN APPROVAL

Initial Petition & Numbering

ISSUING AUTHORITY

Office of Initial Requests

REQUIRED PRIOR DOCUMENTATION

None

Registers the tiny undertaking, assigns its petition number, and verifies that an applicant has actually requested something.

> **Procedural effect.** Allows Registry to examine F-008.

TYPICAL LEDGER EVIDENCE

“Intake stamps F-001 APPROVED.”

F-008

MAIN APPROVAL

Record of Prior Intention

ISSUING AUTHORITY

Archive of Prior Intentions

REQUIRED PRIOR DOCUMENTATION

F-001

Establishes precedent: whether this act has already been contemplated, including whether the intention was previously intended.

> **Procedural effect.** Unlocks the Safety and Decorum examinations. Under circular mandates, Registry also requires Dispatch (F-099), which cannot ordinarily approve until Registry has enabled the intermediate offices.

TYPICAL LEDGER EVIDENCE

“Registry holds F-008: awaiting Intake + Dispatch.”

F-012

MAIN APPROVAL

Certificate of Safety & Innocence

ISSUING AUTHORITY

Bureau of Safety & Innocence

REQUIRED PRIOR DOCUMENTATION

F-008

Certifies that the proposed act will cause no measurable disturbance, including the absence of demonstrable risk.

> **Procedural effect.** Required by Fiscal and Final Dispatch. Under circular mandates, Safety also requires Decorum (F-023), while Decorum requires Safety.

TYPICAL LEDGER EVIDENCE

“Safety stamps F-012 APPROVED.”

F-023

MAIN APPROVAL

Preliminary Decorum Assessment

ISSUING AUTHORITY

Department of Decorum

REQUIRED PRIOR DOCUMENTATION

F-008

Determines whether the original proposed act is sufficiently appropriate and dignified to be considered.

> **Procedural effect.** Required for Silly Walks (F-041) and Committee approval (F-047). Under circular mandates, Decorum and Safety require each other. This is not the later gait review F-023-G.

TYPICAL LEDGER EVIDENCE

“Decorum stamps F-023 APPROVED.”

F-034 MAIN APPROVAL

Fiscal Implications Certificate

ISSUING AUTHORITY

Office of Fiscal Implications

REQUIRED PRIOR DOCUMENTATION

F-012

Approves the anticipated cost of the trivial act, including the cost of calculating that cost, to an absurd degree of precision.

> **Procedural effect.** Required before the walking paperwork and Committee review may proceed.

TYPICAL LEDGER EVIDENCE

“Fiscal stamps F-034 APPROVED.”

F-041 MAIN APPROVAL

Certificate of Ceremonial Gait

ISSUING AUTHORITY

Department of Silly Walks

REQUIRED PRIOR DOCUMENTATION

F-023 + F-034; also F-047 under circular mandates

Records completion of three officially unnecessary steps. The walk requires a provisional Committee permit (F-046-W) during its examination.

> **Procedural effect.** Required by the Committee for its final decision. If rescinded or voided, the gait and its paperwork must be undertaken again. Circular mandates make Silly Walks demand final Committee approval before the walk, while the Committee demands F-041 first.

TYPICAL LEDGER EVIDENCE

“CEREMONIAL GAIT COMPLETED” followed by “Silly Walks stamps F-041 APPROVED.”

F-046-W SUPPLEMENTARY PERMIT

Provisional Walking Permit

ISSUING AUTHORITY

Committee on Minor Acts

REQUIRED PRIOR DOCUMENTATION

The F-041 process has begun

Authorizes the applicant to undertake an unnecessarily elaborate gait before the Committee has finally approved the petition.

> **Procedural effect.** Permits the ceremonial gait to be completed and certified as F-041. It is a supporting permit, not a ninth main approval. It can be withdrawn following a Decorum veto.

TYPICAL LEDGER EVIDENCE

“PROVISIONAL WALK PERMIT: Committee on Minor Acts approves F-046-W.”

F-047 MAIN APPROVAL

Committee Resolution on a Minor Act

ISSUING AUTHORITY

Committee on Minor Acts

REQUIRED PRIOR DOCUMENTATION

F-023 + F-034 + F-041

Records the Committee’s final assent to the minor act after the required gait has been certified.

> **Procedural effect.** Normally opens the path to Dispatch. If Decorum’s Final Say is enabled, F-023-G must first resolve successfully; a veto annuls F-047, F-041 and F-046-W.

TYPICAL LEDGER EVIDENCE

“Committee stamps F-047 APPROVED.”

F-023-G

SUPPLEMENTARY REVIEW

Post-Committee Gait Conduct Review

ISSUING AUTHORITY

Department of Decorum

REQUIRED PRIOR DOCUMENTATION

Approved F-041 and F-047, with Decorum's Final Say enabled

Re-examines the conduct of an already approved silly walk. Decorum may affirm it or overrule the Committee on grounds of improper propriety.

> **Procedural effect.** An affirmative finding releases Dispatch; a veto cancels the provisional permit F-046-W and the approvals F-041 and F-047, demanding a fresh walk and new Committee paperwork. It is not counted as an additional chamber signature.

TYPICAL LEDGER EVIDENCE

"DECORUM APPEAL OPENED" / "DECORUM AFFIRMS F-023-G" / "DECORUM VETO — F-023-G".

F-099

MAIN APPROVAL

Final Seal & Dispatch Order

ISSUING AUTHORITY

Final Seal & Dispatch

REQUIRED PRIOR DOCUMENTATION

F-047 + F-012; plus successful F-023-G when required

Confirms that all necessary approvals remain valid and grants technical permission to perform the requested trivial action.

> **Procedural effect.** Completes authorization, not the act itself. The applicant still has to use the action button to ring the bell or perform the approved undertaking.

TYPICAL LEDGER EVIDENCE

"Dispatch stamps F-099 APPROVED." / "FINAL AUTHORIZATION…"

How to Interpret a Ledger Entry

BEGINS EXAMINATION

The office has started reviewing the form; no approval has yet been issued.

HOLDS / AWAITING

A prerequisite stamp or conduct verdict is missing.

APPROVED

A current stamp exists. It can be challenged later.

RESCINDED / AUDITED / MISFILED

Evidence becomes invalid or unavailable. Later approvals may fall with it.

EXTRAORDINARY DISPENSATION

Ordinary evidence is waived; the office counts as satisfied without normal processing.

FORMAL CONTRADICTION

One or more circular prerequisite chains. Loop counts are not counts of separate forms.

FINAL AUTHORIZATION

Dispatch has authorized the act; the act itself may still be outstanding.

AUTHORIZED ACT EXECUTED

The applicant has carried out the insignificant deed.

The Official Silly-Walk Chain

01 Decorum's ordinary review **F-023** and Fiscal's certificate **F-034** must be available.

02 Silly Walks begins **F-041**; the Committee grants provisional gait permit **F-046-W**.

03 Three unnecessary steps are performed and certified under **F-041**.

04 The Committee gives final assent under **F-047**.

05 If "Decorum's Final Say" is enabled, **F-023-G** reviews the approved walk. A veto voids the permit, the gait certificate, and the Committee's approval; the walk must be done again.

06 Only after the required approvals and conduct review are valid may **F-099** authorize the trivial act.

> **The Terminal paradox:** Circular mandates make F-041 require F-047 while F-047 still requires F-041. Other circular mandates entangle Registry with Dispatch and Safety with Decorum. Waiting alone cannot resolve these loops.

A narrow loophole: The app's special post-Committee conduct review is triggered by ordinary, approved F-041 and F-047 forms and an unwaived F-023. Extraordinary dispensations may therefore bypass an actual walk or its appeal.

Regulation Presets

INTERPRETATION	CIRCULAR	AUDITS	MISFILING	DECORUM VETO
LENIENT	OFF	OFF	OFF	OFF
OFFICIAL	OFF	ON	OFF	ON
TERMINAL	ON	ON	ON	ON

Individual switches produce Custom regulations. Each petition retains its own rules; new petitions begin with Official regulations unless a copy is explicitly requested.

OFFICIAL NOTICE. This register describes the functions of the forms. It does not itself grant authorization, substitute for evidence, establish precedent, or excuse the applicant from additional paperwork.

Nothing shall be done until everything has been done first. · This companion reference does not modify the simulator or its certified event ledger.
